

Supermarket modern LED wall spotlight

Jowin lighting is supermarket modern LED wall sport light manufacturer, exporter and supplier in China. We have been specialized in lighting for over 24 years. Our products have a good price advantage and cover most of the European and American markets. We look forward to becoming your long-term partner in China.

Product Introduction

1. Small size. An LED is basically a very small wafer encapsulated in epoxy resin, so it is very small, very light.
2. Low power consumption. LED power consumption is very low, generally speaking, the working voltage of LED is 2-3.6V. The operating current is 0.02-0.03A. That is: it consumes no more than 0.1W of electricity.
3. Long service life. With the right current and voltage, LEDs can last up to 100,000 hours
4. High brightness, low heat. LED technology is advancing with each passing day, its luminous efficiency is making amazing breakthroughs, and the price is constantly decreasing.
5. Environmental protection. LEDs are made of non-toxic materials, unlike fluorescent lamps that contain mercury that can cause pollution, and LEDs can also be recycled and reused.

Product Parameter (Specification)

Light Source : LED 8*1W
Size : L235*H100*E35 mm
Matrial : Aluminium
Color : White&gold finishing

Product Feature And Application

Strong and durable. LEDs are completely encapsulated in epoxy resin, which is stronger than bulbs and fluorescent tubes. There are no loose parts in the lamp body, which makes LEDs not easy to damage..

Product Details

TB1159-08 WH+GO is power saving and small packaging size.
